Hey Rochelle,
I thought we should have a side bar on this. I was not aware of the community meeting/engagement on 10/20. Nicole Nelson is one of our contacts for Centreville, and I didn't know she also has reached out to ESTL. Have you worked with her in the past? What do you think about Joan's request below? Who else is working on the ESTL area besides you and the HCT team?

Subject: Community Engagement in ESLA

Hi Rochelle and Kathy,

The enforcement team had a call with Illinois EPA this morning about their work in the ESLA to address sewage issues. On the call, Jim Miles stated that he participated in the monthly zoom meeting of the residents in that area on 10/20. He said that the meetings are coordinated by Nicole Nelson of Equity Legal Services. He talked about Sanitary Sewer Overflows and explained to the residents how to identify them and he also gave the residents the phone number of the local inspector – in case they see an SSO and want to report it.

We asked on the call if EPA attended this meeting, and Jim Miles didn't think so. Do you know if EPA participated or if we were invited?

Kathy (or Rochelle), would you be willing to set up a meeting with all the EPA groups that are working on the East St. Louis areas? There was one a few months ago and I think it would be helpful if we understand what each team is doing and any issues that perhaps other teams could help with.

We all have availability tomorrow if everyone else does, too.

Thanks a bunch.

-Joan
